

# Visitor Entry Phone

## ELP 1040

### DESCRIPTION

The new Condoplex ELP 1040 Visitor Entry Phone System for condominiums and/or office towers, implements a unique and innovative approach for Visitor Access Control. The system allows any guest to quickly and conveniently announce their arrival with a minimum of effort.

Each Visitor Entry Phone unit is comprised of a high quality Display that provides excellent readability under all lighting conditions, and a backlit 12 button keypad with an optional Card Reader for quick access to the main entrance doors for both Visitors and Tenants. The unique large character Video Display, provides easy instructions for Visitors in both Day, Night, and Full Sunlight modes. Fast-page scrolling with 'index monitor' allows Visitors to scan an unlimited number of Tenants in seconds. Frequent guests may bypass the Listings altogether and call the Resident by simply entering his 4 digit code.

### STANDARD KEY FEATURES

- VANDAL PROOF HOUSING (Stainless Steel Cover)
- INDOOR OR OUTDOOR WEATHERPROOF HOUSING (designed for extreme weather)
